Itona TI56 Series

Integrated Desktop Thin Client

The Itona TI56 series integrated desktop thin client from VXL combines a crystal clear 17" LCD screen with a powerful Thin Client, within a single elegant unit. With dual monitor support and optional touch screen facility, the TI56 series offers high performance, space saving features and ease of deployment whilst retaining VXL's proven combination of quality at the lowest possible price point.

Itona TI is available with a variety of operating systems (Linux Professional, Microsoft Windows CE, Microsoft Windows XP Embedded and Microsoft WES) so it connects easily to a wide range of servers and networks. With integrated 54Mbps wireless LAN as well as 10/100 Ethernet, the Itona TI 56xx delivers the security and central manageability of thin client computing – in a package.
